### Science Week – Year 3 Updated timing for workshop

Dear Parent/Carer,

We are very excited about our upcoming Science Week at Ben Jonson, which is all about robots. Science week is running from Monday 28 January to Friday 1 February and will feature a range of exciting activities, such as family workshops, scientists visiting the school, class workshops and in-class activities linking robots to other areas of the curriculum.

The Year 3 students are fortunate enough to be participating in a family workshop about robots, and also engaging in a workshop that will be run by Prepare Robo.

#### Year 3 Family Workshop – Wednesday 30 January

The Year 3 family workshop will be on **Wednesday 30 January. The start time has been updated and will start slightly later at 9:45am** in the main hall. Please enter the school via the Commodore St gate. The workshop will last about an hour. Our science workshops have been very popular over the last few years and it is a great chance to do creative science with your children. If you wish to attend, please sign and date the slip below. We hope to see you there!

#### Prepare Robo Workshop – Friday 1 February

The school is welcoming scientists to work with the children and staff on Friday 1 February. We anticipate an engaging and interactive session where children will develop their scientific understanding all about robots! This workshop is for the children only.

We are looking forward to another successful Science Week!

Alex Langfield and Meredith Dougherty  
Science Leaders for Ben Jonson Primary School
