

### Maths Challenge Cards

The maths challenge cards are short activity ideas that can fit into your day and will help your child see maths as fun.

You can repeat each activity as many times as your child wants to. Feel free to change the ideas to suit your child's interests, what you have in your house and their current level of development. If your child wants to represent their thinking on paper let them do so in their own way. For example they might not want to write numbers, but they might want to draw to communicate their mathematical thinking.

We encourage you to share any ideas you have for maths challenges so that our collection of cards can grow and we can learn from one another.

### Maths Challenge

Do 10 jumps in each room of your house. Count each jump to make sure you do 10.

Practise writing number 10 at home.

### Maths Challenge

What numbers can you see in the registration plate of your car?

Which is the smallest number? Which is the largest number?

Practise writing these numbers at home.

## Maths Challenge

What numbers can you see in your street?

Which is the smallest number? Which is the largest number?

Can you draw a picture of your street and write some of these numbers.
