

Week 7

Dear parents/ carers

Welcome to this week's online learning for reception. We have put each day's learning in one document. Let us know if this is easier for you to look at.

We have laid out the activities in a table so that you can have an idea of the sort of routine you might want to work out. Spread the activities out, repeat them as you see fit.

Children in Reception learn best through **PLAY**. It is important that while learning at home they are still provided with opportunities to play and learn through activities they enjoy. Reading and writing is important and there are lots of ideas and activities for the children to practise these skills but keep these sessions short and fun. Where possible link the writing to their interests, e.g. if they like cars they can draw and describe the car and think about where it will go.

Looking forward to seeing you again soon.

Charlie and the reception team

Day	W/b 18.05.2020	Play activities	Phonics (30 mins) Please use RWI website for lessons at times below	High frequency words (5- 10 mins)		Maths activities (15 mins)	Book activities (15 mins)
1	Monday 18 May	Space drawing	9.30am - Set 1: ng	are	will	Counting, ordering and number recognition	Explore it!
			10.00am - Set 2: oo – look at the book				
Weekly Learning Challenge:							

Journeys Play activity - Monday 18th May

This week we will be exploring journeys through space. Let's pretend to be astronauts, exploring space in our space shuttles. What do you think it is like in space? What would you see? What would you hear?

Listen to the stories 'Whatever Next' (<https://www.youtube.com/watch?v=Nn73STXrPP0>) or 'Aliens love underpants' (<https://www.youtube.com/watch?v=ADnAGBWlZqE>) to find out more.

You could also watch these videos to find out more about space:

- <https://www.bbc.co.uk/bitesize/topics/zkvv4wx/resources/1> <https://www.youtube.com/watch?v=Qd6nLM2QIWw>

Space drawing

Find a dark piece of paper.

Wait until nighttime and look up at the sky. Draw what you can see.

Now imagine you are an astronaut exploring space in your space rocket. Draw what you think you might see.

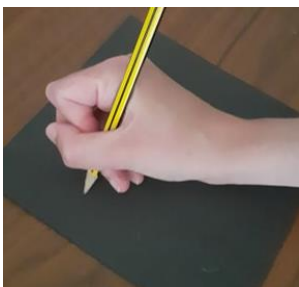

Maybe you will see:

- a planet
- the moon
- stars
- an alien
- a rocket
- a shooting star

Challenge

Find a dark space. Draw your space picture on a black piece of paper using a normal pencil. You might not see anything. Now shine a light on the page. Can you see your picture now?

Phonics

There are daily lessons for phonics on Ruth Miskin Training on YouTube.

Set 1 sounds - 9.30am.

Set 2 sounds - 10.00am

Each film is available on YouTube for 24 hours.

You can see the schedule for the weeks ahead if you click on the link below -

https://www.ruthmiskin.com/media/filer_public/1b/7d/1b7df13e-4381-4bb5-866b-ac0549394947/ss_after_easter1.pdf

Today's sounds are:

Set 1	Set 2
ng	oo – look at the book

If you don't have access to YouTube find objects in your house that begin with the sound or have the sound in them.

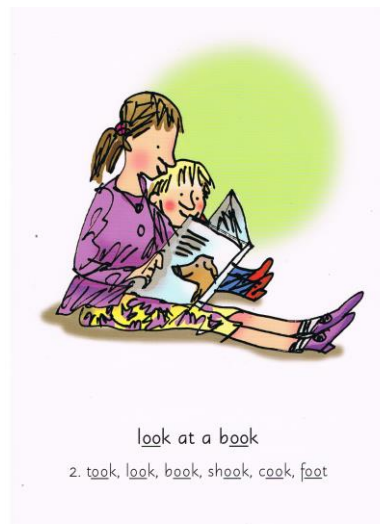

nnnnnnng
a think on a string

th – i – ng thing

w – i – ng wing

s – i – ng sing

s – o – ng song

oo – look at the book

t – oo – k took

b – oo – k book

sh – oo – k shook

f – oo – t foot

sh – oo – k shook

High Frequency Words – Day 1

Children who know all Reception words should read **Year 1** words!

Learn one of these words each day!

No longer than **10/15 minutes!**

Make it fun!

Reception High Frequency Words	Year 1 High Frequency Words
are	will

Write them onto paper and cut them up. **Hide them around your home.**

Ask your child to find certain words and bring them back to you.

Play HFW Bingo! Write down some of the words onto a bingo grid and then read out the words. Can they find them?

I	up
we	the
it	go

Get your child to be the bingo caller and read out the words!

Look for and match HFWs in books!

Maths Challenge Cards

The maths challenge cards are short activity ideas that can fit into your day and will help your child see maths as fun.

You can repeat each activity as many times as your child wants to. Feel free to change the ideas to suit your child's interests, what you have in your house and their current level of development. If your child wants to represent their thinking on paper let them do so in their own way. For example they might not want to write numbers, but they might want to draw to communicate their mathematical thinking.

This week we are going to practise our number skills.
Each day there will be some activities for you to complete:

1. Explore numbers
2. Play with numbers
3. Practise your numbers

1. Explore numbers

<https://www.bbc.co.uk/cbeebies/puzzles/peter-rabbit-counting>

2. Play with numbers

<https://www.topmarks.co.uk/learning-to-count/ladybird-spots>

3. Practise your numbers

Your challenge today will be to make some number cards from a piece of paper and write numbers 0-10 on them. Then you need to mix them up and put them in the correct order from the smallest to the biggest number. (0 1 2 3 4 5 6 7 8 9 10)

The challenge can be made easier with numbers 0-5 or harder with numbers 0-20. You can also try to order numbers from a different number not just 0. (e.g. from number 5 to number 11)

Here are some more ideas on ordering numbers through play...
