

A Picnic in the Park

2

Logan and Anne take a picnic to the park. They have packed a picnic basket. The basket has a blanket, plates, cutlery, and lots of tasty food. Their Mum has made ham and cheese sandwiches, and they have strawberries for dessert.

They find a meadow full of yellow daisies. They sit down on the blanket. The sun is out and they can hear bees buzzing. Logan sees a black lizard scuttle past. He tries to chase it but the lizard is too fast for him.

Anne looks up and sees their neighbours, Sam and Sue. She asks them to join the picnic. Luckily, their

Mum had packed extra sandwiches. Anne shares the sandwiches. After lunch the children pack up. They go for a walk through the meadow. They look for the little black lizard!

A Picnic in the Park Comprehension Questions

2

1. Where do Logan and Anne go for a picnic?

2. What flowers do they find in the meadow?

3. What does Logan see?

4. What does Anne share with her neighbours?

5. Why was it lucky that Mum packed extra sandwiches?

Extension: What could you do, to be kind to your neighbours?

Our Camping Holiday

11

Our family went camping last weekend. We were very lucky that it did not rain. At the campsite we put up our tent. Then we put up our camping beds inside the tent.

There were lots of other families camping. We made friends with the family next to us. We went for nature walks in the forest with them. One day we walked to the top of the hill. From the top we could see across the valley below.

On the last day of the camping trip, we had dinner with our new friends. Everyone helped cook the meal. We ate baked beans on toast. Then we toasted marshmallows over the charcoal.

In the morning we packed up our tent. It began to rain. We were glad we were going home!

Our Camping Holiday Comprehension Questions

11

1. When did the family go camping?

2. Where did they put their tent up?

3. Why did they go for a walk in the forest?

4. What could they see from the hill top?

5. Why were they glad to be going home?

Extension: What sort of things do you think they found on their nature walk?
