

Keeping Safe Outdoors

Although we are being encouraged to stay at home, we are now allowed to exercise outside and take daily walks to the park with members of our household. With this in mind, it is important to remember all of the safety guidelines the government have enforced. This will make our outdoor trips safe and enjoyable, as we will be protecting our self and others.

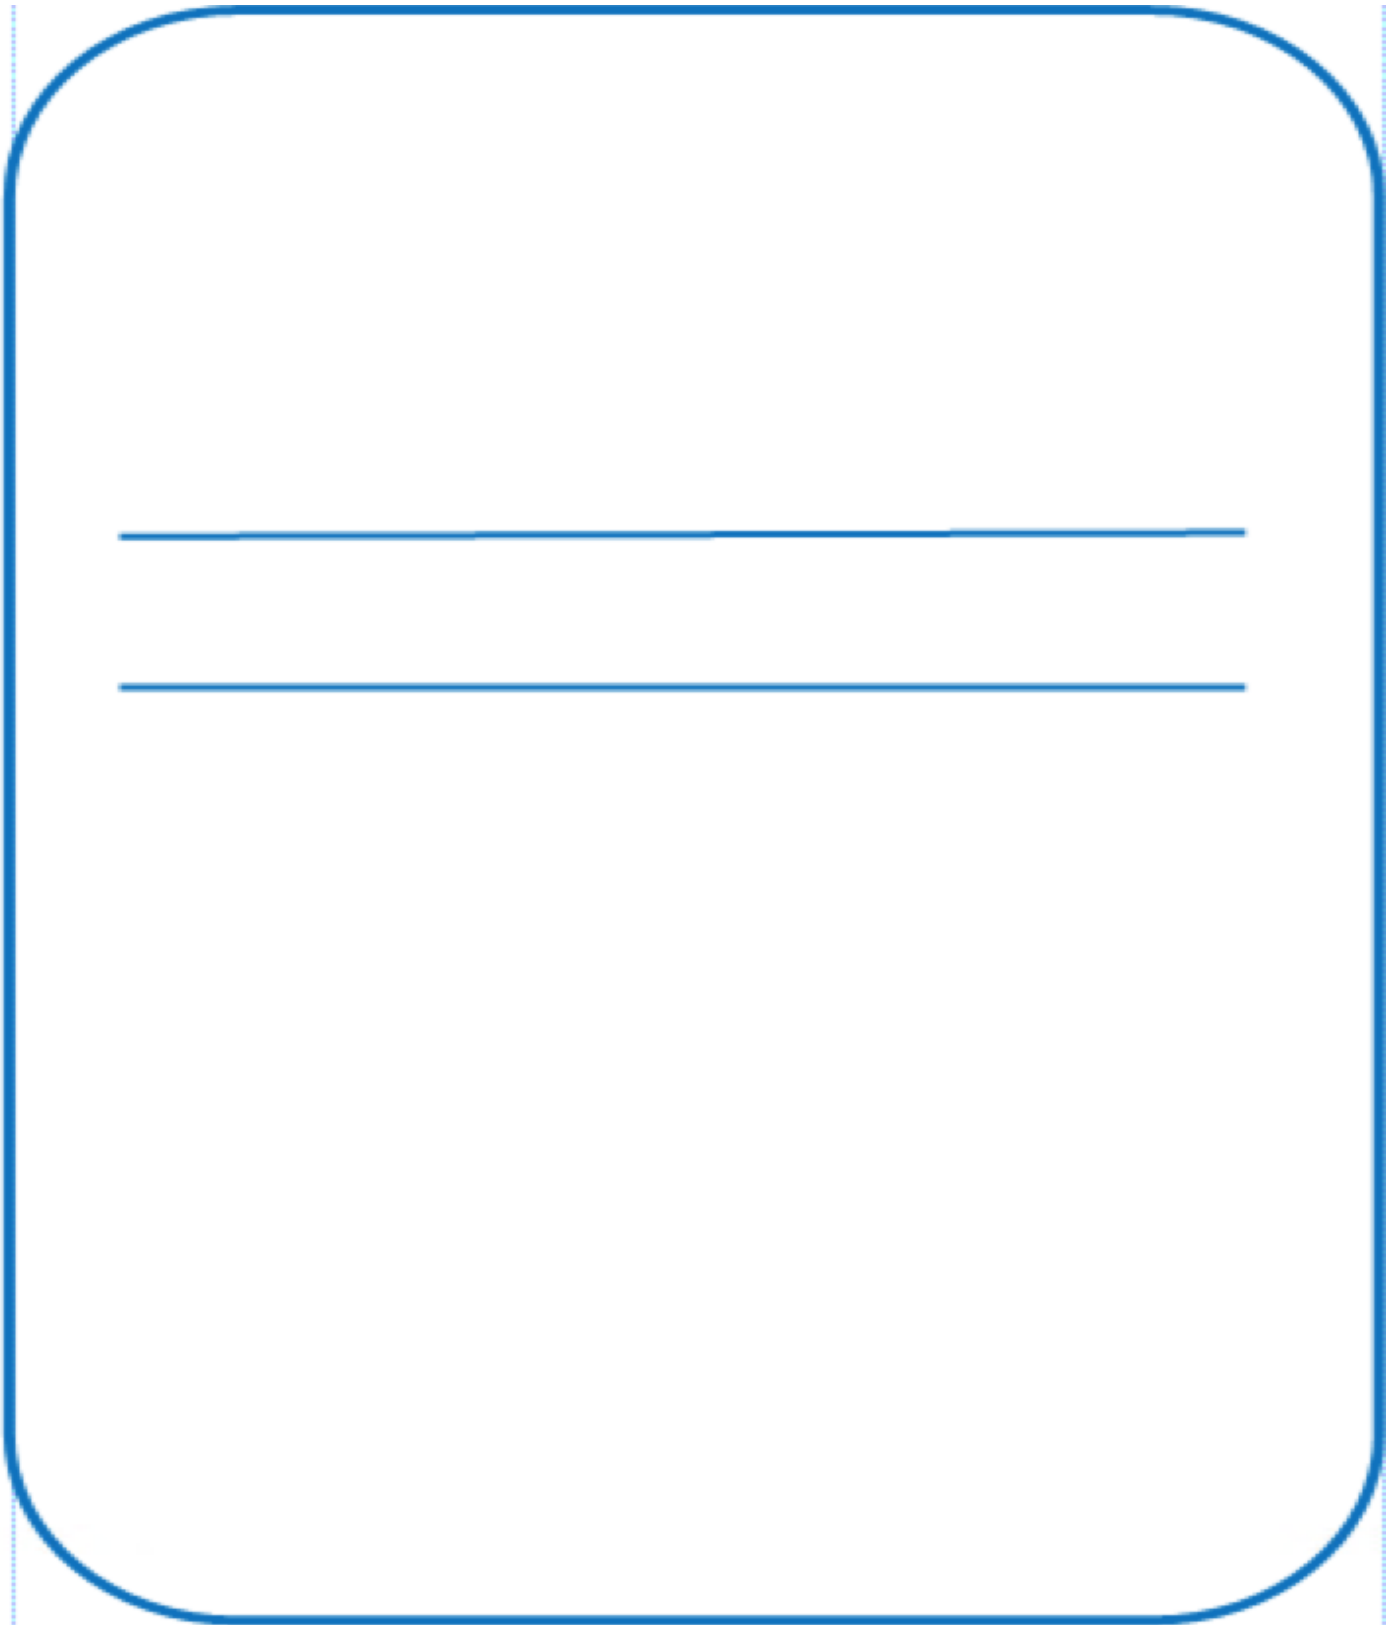

Look at the clues below and with a family member discuss the important safety tips for venturing outside. You may be able to add some of your own!

Design a Poster!

We would like you to use all your great knowledge about keeping safe outdoors to design a poster. Think carefully about what you will include. Will you draw pictures? What key words will you include? Remember, this poster is to remind and encourage people to stay safe outdoors.

Remember - you do not need a printer to complete this task. You may want to use the template below or you may choose a piece of paper from home.

A large blue rounded rectangle template for a poster. Inside the rectangle, there are two horizontal blue lines for writing. The rectangle is centered on the page and has a thick blue border. The corners are rounded. The background of the page is white.
