

History Comparing old and new toys

Let's do some research about old toys!

Choose a toy you have at home and see if you can find out about the history of your toy. **You can use books or the internet to help you find out information about toys in the past.** When looking for information, think about these questions:

- When and where was it first made?
- What materials was it made from?
- What materials is it made from now?
- Has it changed over time? How?
- Can you find any pictures of what it used to look like?

Write down as many facts as you can about the toy you have chosen. You can even draw a picture of both the old and new version of your toy - make sure you add labels too!
