

# Year 3 Maths

Week beginning 18 May

Every day there will be videos and a maths activity for your child on BBC Bitesize. Use the link below or google “Bitesize Daily Lessons”. Make sure you select Year 3’s learning. If the activity is too challenging, you can always try the activities for the year group below.

The videos on the White Rose website link to these activities and are more detailed than the videos on Bitesize. Use both

There are also lessons for subjects across the curriculum on the Bitesize website, so there’s plenty for your child to explore when they have finished their maths!

Activities on BBC Bitesize
